**Listed:**

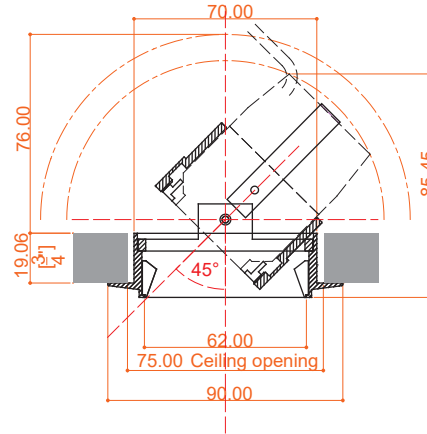

### Trim or Trimless

Trim could be filled with putty for trimless installation.

### Tilt and Pan / Cooling fan

The light can be tilted to a stunning 45-degree and has a 360° rotation, making it easy to direct the light as you please. The spotlights have a very quiet, built-in fan that provides excellent cooling system. It's possible to focus the lights and change lenses even while the lights are on.

### Access and replace COB module and lens from the bottom
